

Time on your hands? We can help with that.

Homeward Bound Pet Rescue of Ellijay offers volunteers the opportunity to work from home and not even have to engage in Zoom conferencing!

Yes, you can help the dogs and cats at our rescue without ever leaving the comfort of your own home by simply volunteering one day a week to monitor and respond to calls on our phone line. It's easy, rewarding, and can be done at your convenience. By simply logging into our telephone answering system, retrieving messages 2-3 times a day, and returning the calls when necessary, you will be providing a much-needed service for Homeward Bound.

And the best part is, since it is all done remotely, you don't need to live in Gilmer or Fannin counties, or even anywhere in the vicinity. We will provide all the information and training you need for answering the calls, and you will have a back-up support person to assist with any questions that may arise along the way.

So, what are you waiting for? We need you on our phone team now!

For more information about this great opportunity, email Homeward@ellijay.com or, better yet, try it for yourself. Call our phone line, leave a message, and one of our excellent phone team volunteers will return your call and tell you personally just how rewarding the work is. They are waiting for your call at **706 698-4663**, so don't delay. The dogs and cats will thank you, as will all the volunteers.
